

Announcing Robert Campbell's annual seminar ...

# The Real Estate Market in 2010:

Are these times of high risk or times of great opportunity?

## WHO SHOULD ATTEND THIS SEMINAR?

1. Anyone who wants to know (a) what Robert Campbell's key market-timing indicators are now signaling for housing prices; (b) what his macro-economic outlook for the economy is; and (3) two investments you must own.
2. Any man or woman who would like to know how to use some highly effective (and underutilized) strategies for making money in real estate – during good times or bad.
3. Anyone who is tired of being an average investor and wants to make bigger and safer profits – regardless of where you live or where you want to invest.

## SEMINAR SPEAKERS:

**Robert Campbell** – A real estate economist that tracks 17 major U.S. housing markets to determine the most profitable Times to buy and sell – including San Diego, Los Angeles, and San Francisco. Robert is also author of *Timing the Real Estate Market* and publisher of *The Campbell Real Estate Timing Letter* – the only market-timing advisory for Southern California real estate investors.

Robert's presentation includes the FREE report:  
*Two Critical Investments Everyone Should Own* – a must read!

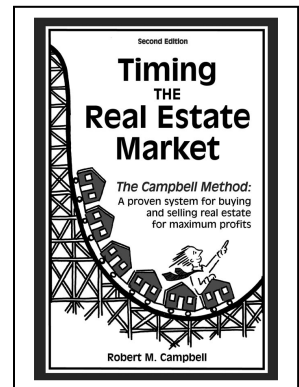

**Michael Morrongiello** – an active investor who specializes in buying and selling property with seller carry-back financing. Michael will teach you how to "Ace Out the Banks" – and put together profitable real estate deals with no bank financing.

**Todd Toback** – a active investor and real estate options expert that will show you how to control and make money in real estate without actually owning it. You will learn six low-cost, low risk option strategies that can make you spectacular profits under all market conditions – but even more so when you combine these strategies with real estate timing!

Todd's presentation includes this 18 page FREE report: *Timing the Real Estate Market: How to Use Options to Make Spectacular Profits.*
